

Tiny Tot Toothbrush Replacement Schedule

According to the American Dental Association, toothbrushes can become infested with bacteria. These germs come from the mouth and can accumulate in the bristles of a toothbrush over time. The ADA recommends using a clean, new toothbrush every two to three months or once the bristles are frayed. Children's toothbrushes however need to be replaced more frequently. The Village of Skokie Health Department recommends that the children's toothbrushes are to be changed every two months or earlier, as well as after any kind of illness that prevents the child to come to school. Therefore, listed below is the toothbrush replacement schedule that Tiny Tot Preschool has adopted in order to comply with the requirements and improve children's wellbeing and health.

Monthly Toothbrush Replacement

- ★ First Term Starting the First Week of School
- ★ Second Term: Starting November 1st, 2018
- ★ Third Term Starting January 3rd, 2019
- ★ Forth Term Starting March 4rd, 2019
- ★ Fifth Term Starting May 6st, 2019
- ★ Sixth Term Starting July 1st, 2019

Please follow the schedule above thoroughly and remember to provide a new toothbrush on time. Please understand that we cannot store children's toothbrushes, so do not bring all six of them at our first day of school. Thank you for your help. Together we can assure a healthy and pleasant environment for your children.
